

Helpful Hints for Dropbox

Install Dropbox desktop app on your computer.

You Have Dropbox but can't share a file:

- Make sure you clicked on the e-mail confirmation you received after signing up for DropBox. (otherwise it looks like Dropbox is there, but it won't let you e-mail your video to anyone)
- Note: if someone sent you a link to Dropbox file previously, this does not mean Dropbox is set up for you. To be able to share a file, you have to have your own drop box account.

Can't find persons e-mail in my Dropbox to be able to share file? you can share a file with someone even if they don't use Dropbox by doing the following:

- 1 If you haven't already, [install the Dropbox desktop app on your computer](#).
- 2 Right-click the file and hover over **More...**
- 3 Choose **Copy Dropbox link**.
- 4 The link will be copied to your clipboard. You can then paste it to an email, message, or wherever people can access it.

Or:

- 1 If you haven't already, [install the Dropbox desktop app on your computer](#).
- 2 Right-click the file.
- 3 Choose **Share...**
- 4 Click **Create link**.
- 5 Click **Copy link**.

If Recipient only sees part of your video:

If recipient is only able to see part of your video, send them the link to your video instead of sending it directly from Dropbox (the second option up above). You can still use the free Dropbox option when you registered.
